

SCAR is announcing the launch of its 2008-9 Fellowship Programme, which this year is in two parts:

(i) the Standard SCAR Fellowship - for postgraduate and/or post- doctoral researchers from within the 34 SCAR Member countries to undertake research at an institute in another SCAR country.

(ii) SCAR/IPF/IAI/UNEP Sixth Continent Initiative Fellowships - for postgraduate and/or post-doctoral researchers from within the 34 SCAR Member countries, or from non-traditional polar countries, to undertake research and development activities in the Antarctic.

The SCAR Fellowship Programme is designed to encourage the active involvement of early career scientists and engineers in Antarctic scientific research, and to strengthen international capacity and cooperation in Antarctic research.

Note that the deadline for submissions is the 15th of May.
